TPMS

Tire Pressure Monitoring System to protect your car safe and save improper tire wear.

Home page

Boot the initial page, provide important information, such as location and audio-visual information. And provides the user a custom button.

APP- Multimedia

(Media functions, radio, music, videos, photos, digital TV, the iPod, the AUX.)

APP- Secretary

Equipped with telephony features, more combined the NAVI and network functions, to provide real-time traffic intelligence.

APP- AVM

AVM technology, providing the driver safe driving environment.

The panorama image is a video recorded in digital format to a hard disk device . Panorama and bird view photography.

Bird View

Bird view function, auxiliary driver parking, leaving no dead ends in the night parking.

APP- Settings

Setting function, provide the user the flexibility to adjust the function closer to demand.

Phone

In the case of security, the phone features, even when traveling, no missed calls.

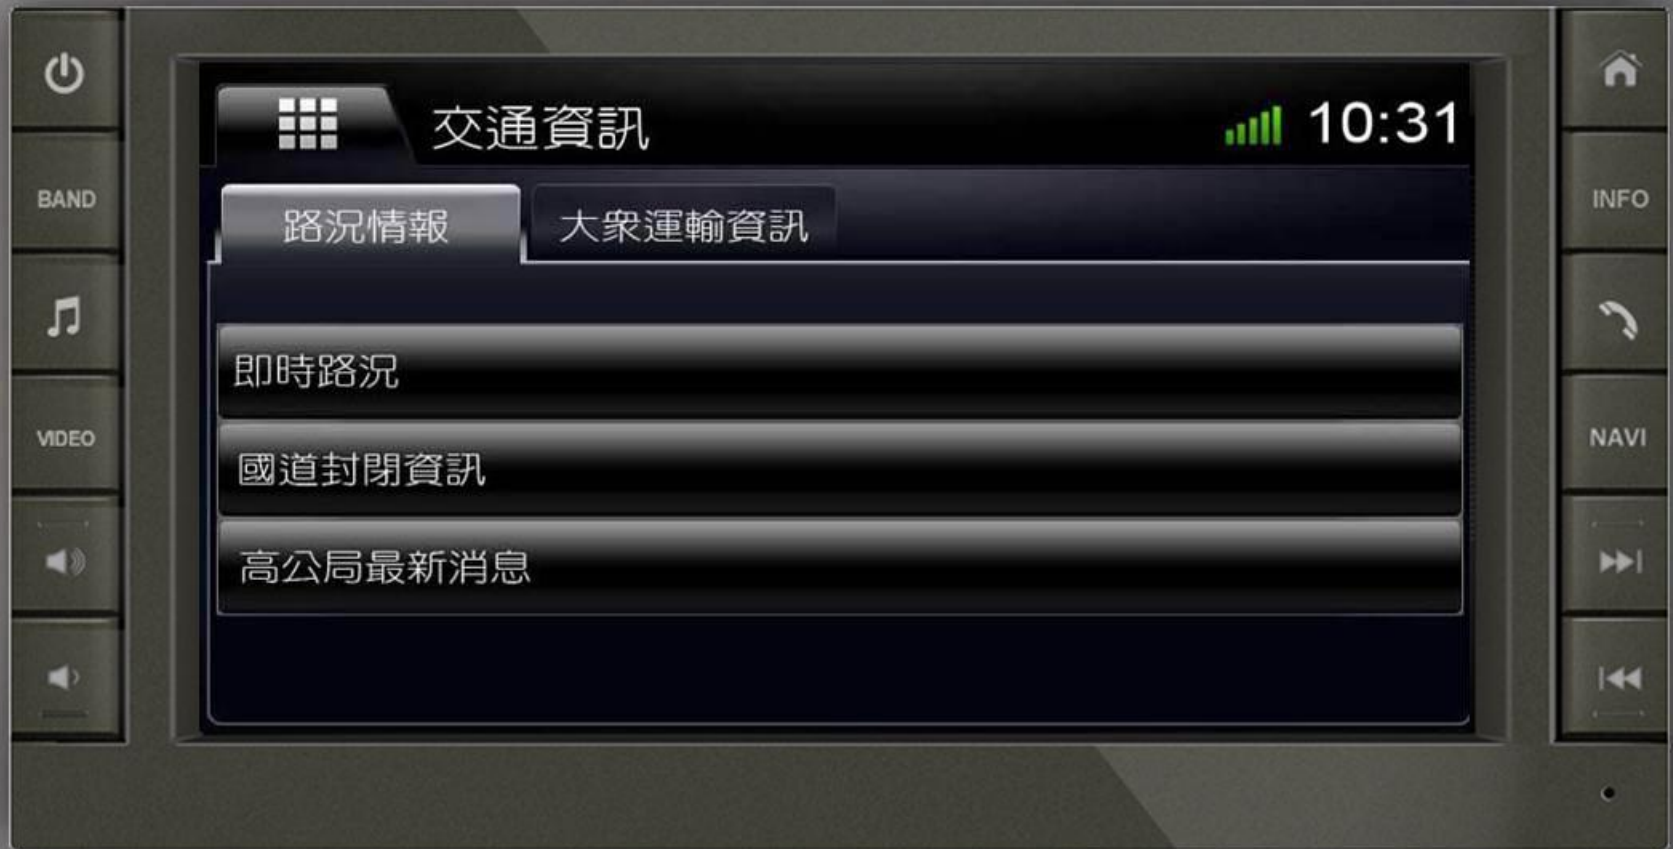

ECO

Vehicle self-evaluation, to provide fuel consumption information known to the owners reference.

Traffic Information

Provide real-time road intelligence, allowing the driver to Keep the traffic moving lines.

Network Settings

Equipped with 3G network, you can also connect via WiFi network.

NAVI- Menu

Equipped with NAVI functional. Provide route planning and map information to the driver.

NAVI-MAP

Equipped with NAVI functional. Provide route planning and map information to the driver.

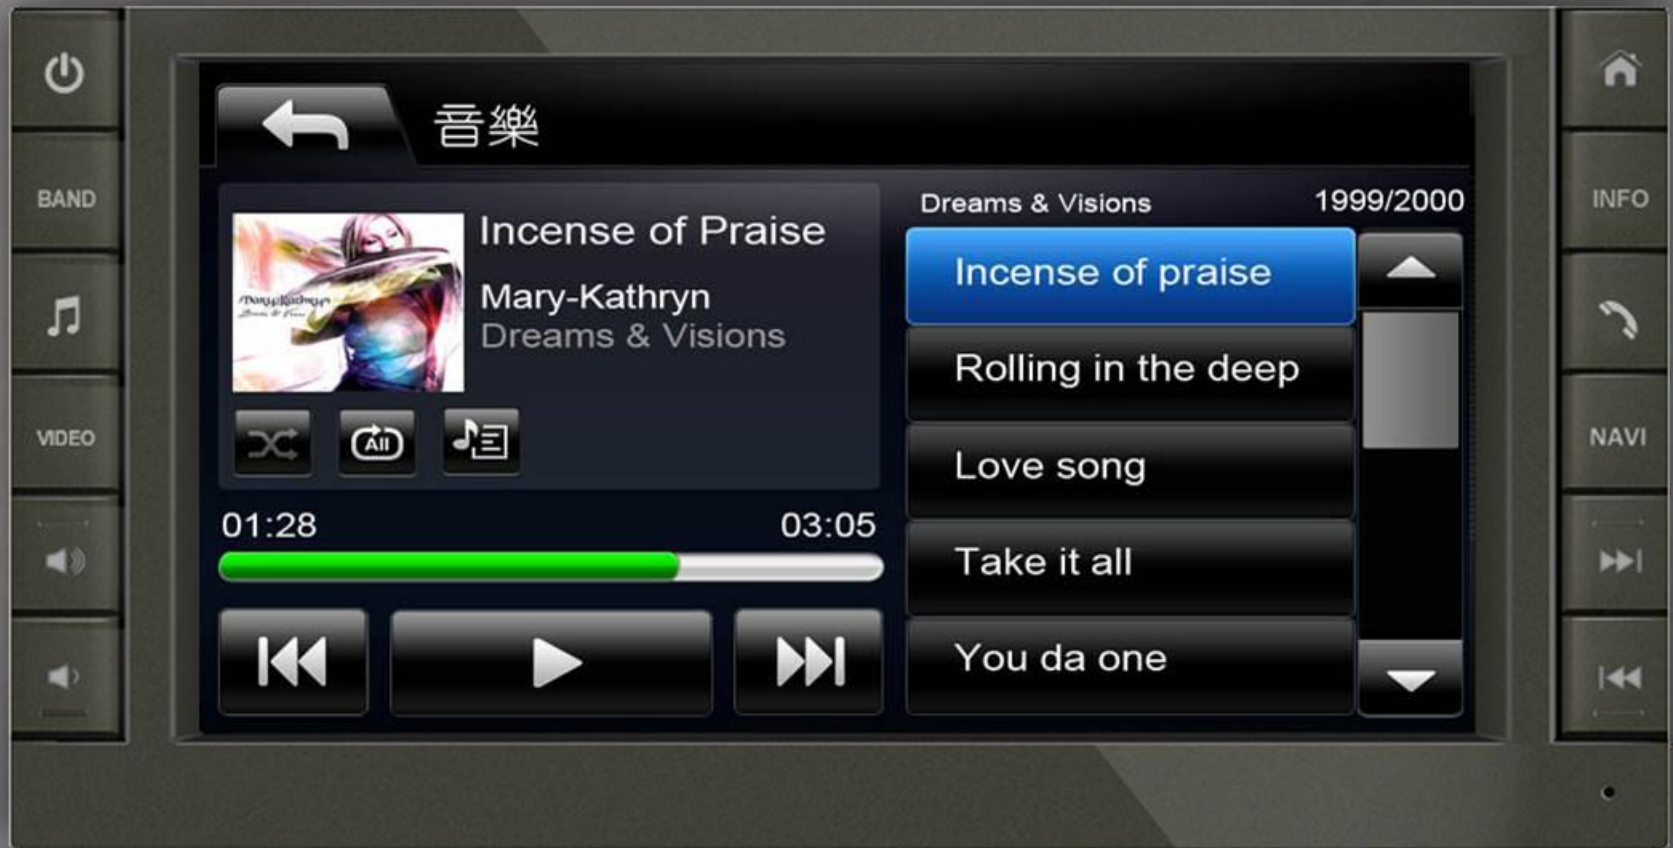

Radio

Simple design. 6 Quick Pick memory channels to make operation easier.)

Music / iPod

Support iPod and USB MP3 digital sound reduction technology, the sound is not distorted.)

Video

Support high-quality audio and video playback.

EMG

Link and share your phone screen with the phone. Traffic and road conditions cloud services.)

Miracast

Wi-Fi (Wi-Fi Direct)-based wireless display standard . The 3C devices that support this standard can wirelessly share video screen.)

Browser

You can always search for information on the Internet)

END

Thanks
